## **Instructor Re-Certification Guidelines**

Law Enforcement Services (LES) programs exceed all National Highway Traffic Safety Administration (NHTSA) standards for *Police Traffic RADAR & LIDAR Instructor Certification* and *Police Traffic TIME-DISTANCE Instructor Certification*. LES also provides Instructor Re-Certification every 3 years in accordance with NHTSA standards. Re-Certification may be accomplished as follows:

1. Document proof of initial Instructor Certification by Highway Traffic Safety Programs, LLC or Law Enforcement Services, LLC. (Photocopy or electronic scan is acceptable.)
2. Include documentation of training you have provided in the related field during the past 3 years. (I.e.: Training rosters, memo written on department letterhead, etc.) Training should include the type of class (RADAR & LIDAR or Time-Distance), your participation, the number of students and the number of hours. (A minimum of 20 hours per year is required. Total hours may include preparation hours.)
3. Forward proof of employment with a government agency if rank and agency are to appear on the certification document. (Copy of ID card, memo from supervisor, etc.)
4. Include payment of \$65.00 payable to Law Enforcement Services, LLC. (Be certain to include a return mailing address.)

Upon receipt of the above documentation Law Enforcement Services (LES) will review and approve proper documentation. LES will then mail a current Instructor Certification along with a current Instructor CD, a \$33.45 value. (Instructor CD \$29.95 plus \$3.50 shipping & handling.)
